

AXIS is part of the Accuro-Korle range of radiators, brought to you by ASAL UK Limited.

*AXIS*

So called because the identical parts appear to have been rotated around the central axis; Axis is a triumph in visual aesthetics. This radiator combines an innovative shape and slim linear tube design, giving the illusion of a much larger radiator whilst remaining space-efficient.

Finished in beautiful stainless steel; a material which retains heat more efficiently than chrome or cast iron. This revolutionary material also means that rust, both inside and outside the radiator is a thing of the past! This radiator also comes with an amazing 20 year manufacturer's guarantee against faulty design, material or workmanship.

<b>QUICK CHECK LIST</b>	Brushed Stainless Steel Construction
