

# ILLUSION

ILLUSION is part of the Accuro-Korle range of radiators, brought to you by ASAL UK Limited.

A chic designer radiator, the Illusion can be installed vertically, standing at up to 2 metres high or horizontally at low-level. Its timeless design is best offset against a plain or unfinished wall, such as exposed brick and is particularly well suited for loft-style apartments, conservatories or commercial premises. Flexible space utilisation is key with this model, as it can be mounted on room dividers, wall pillars or along narrow corridors.

Finished in beautiful stainless steel; a material which retains heat more efficiently than chrome or cast iron. This revolutionary material also means that rust, both inside and outside the radiator is a thing of the past! This radiator also comes with an amazing 20 year manufacturer's guarantee against faulty design, material or workmanship.
